What we make, makes us who we are.

At Morrisons, we always try to listen hard to what you tell us is important to you. That's why we work with British farmers we know and trust and you can be sure that all our fresh meat is 100% British.

On Market Street, we make fresh food from scratch every day and we try to be on hand to give you help, advice and food just the way you like it. From fresh bread baked every day to 100% British cream cakes, we try to offer you good quality and great value.

Online or in-store, thank you for shopping with us.

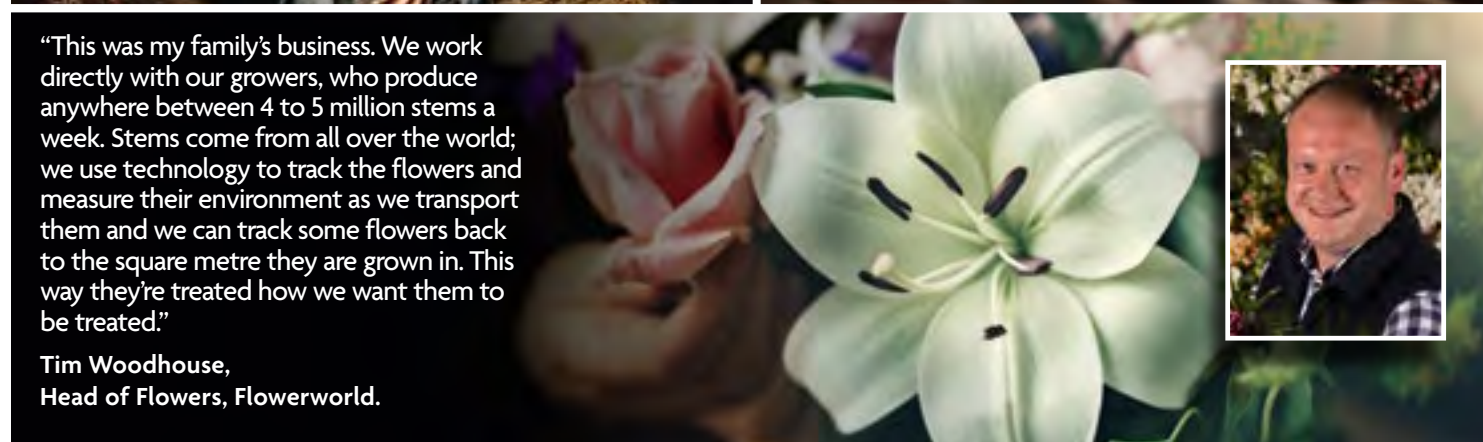

"I get up around 5am to feed the cattle. It's a big job making sure they're all farm assured, but we know exactly where they all come from - they all have their own passport that stays with them all their life."

Richard Winn, Livestock Farmer, Low Farm.

Stephen Throup, Egg Farmer, Grange Farm.

"My mother and father started on a rented farm at Skipton, moved to York around 30 years ago and we got our first poultry shed around 20 years ago. We produce eggs under the RSPCA logo, Lion code and now have close links with Morrisons. We produce and they sell - it's a short chain."

"This was my family's business. We work directly with our growers, who produce anywhere between 4 to 5 million stems a week. Stems come from all over the world; we use technology to track the flowers and measure their environment as we transport them and we can track some flowers back to the square metre they are grown in. This way they're treated how we want them to be treated."

Tim Woodhouse, Head of Flowers, Flowerworld.

Tackling Plastic Pollution

We're proud to let you know that Morrisons is one of the signatories to WRAP's UK Plastics PACT, an industry initiative which aims to transform the way businesses use plastic and prevent plastics polluting the environment. We've done lots already to cut plastic waste, and have a number of plans to make an even bigger difference.

What we've already done

You can now bring your own containers to take away meat and fish from our Market Street Butcher and Fishmonger counters, if you'd prefer.

- We no longer buy plastic drinking straws.
- We now only buy cotton buds with paper stems rather than plastic ones.
- We no longer sell 5p single-use carrier bags.

What we'll be doing to reduce plastic pollution

Working through all of our own brand products to identify, reduce and remove any unnecessary plastic packaging.

- Trialling the effect of removing plastic packaging from fruit and vegetables in a number of stores.
- Making more packaging recyclable.
- Fitting drinking water fountains into new stores - we've already made water freely available in our cafés for customers who want to refill their water bottles.

And there will be more to come.

Help reduce plastic packaging by bringing your own.

We've listened to our customers about how to reduce our use of plastic packaging. So, you can now bring your own container to our Butcher and Fishmonger to take your meat and fish home in.

My husband and I frequently come for light lunch at your Queensbury Cafe and we are impressed by all Cafe staff, but service from one particular member of staff, Gopika is outstanding - she always serves all the customers very courteously and praising about her courteous, friendly service. Thank you for having staff like Gopika in your store.
